

COPD can feel like a prison. *But you have options.*

Local doctors are testing a new investigational COPD study medication in a research study.

If you're 40 to 85 years old, a current or former smoker, and have COPD — also known as emphysema or chronic bronchitis — you may qualify for a local research study and receive at no cost:

- Study-related care from a local doctor
- Study medication and standard of care medication for COPD
- Compensation for travel

A research study is enrolling now.
Call us to see if you may qualify.

**VOYAGER
PROGRAM**

Ask your doctor for more information or contact our clinic to see if you may be eligible to participate.
